GOOD GARDEN JUNK !

A.M. Leonard <http://www.amleo.com/> or for the garden zone <http://www.gardnersedge.com>
Professional quality tools, many hard to find. Prices aren't cheap, but the quality is good. Check out the Okatsune pruners. Many people really prefer them. I found them advertised on several Japanese gardening sites. Okatsune pruners are hand-forged from "Izumo Yasuki Steel" - the same steel used to make Japanese swords with a Rockwell hardness of 60.0 - 61.0. The super sharp blade slides through stems and small branches, making clean cuts. Red and white handles and the red shows up in daylight, white at twilight-easily found when cleaning up. Standard size (8") fits most, while the small model (7") is great as a second pair, or for flowers in the house. They seem to be available in 3 sizes. I'd bet their folding saw would be amazing, too!

Bluestone Garden 1200 Mendelssohn Ave N. Suite 104 Minneapolis, MN 55427 Toll Free: (866) 543-1222 <http://www.bluestonegarden.com/>
This is my source for [Wolf Garten tools](#). One handle, many tools! I love them and think you should take a look! They are professional quality and easy to keep sharp! Lots of other fun stuff. I have ordered from them and they are very prompt!

These are the garden tools I use the most. I carry 3 lengths of handles and about a dozen fittings for them. They are well made and easy to carry with you. I keep them sharp and can work all day easily even with bad knees! The floral hoe and the push pull weeder are a MUST! The push pull weeder makes the maintenance of edges a breeze! And so easy to store.

Brent and Becky's Bulbs 7900 Daffodil Lane Gloucester, VA 23061 (804) 693-3966 <http://www.brentandbeckysbulbs.com/>
This is the only source for my favorite stainless steel tools from All Pro. Quality bulbs, too!
When you open the catalog, put your cursor over the shopping bag, click on tools on the drop down menu!
The 12" and the 22" are my favorites.

B & T Grower Supply, Inc 10462 Highway 165 P.O. Box 608 Forest Hill, La. 71430 1-800-748-6487 <http://www.growersupply.com/>
Do not confuse this with Growers Supply. Appears to be a really low budget website. I can find no info on them, but they list all types of things for use in & around greenhouses. **NO RETURNS!!!!** The popular 'Growers Supply' is listed later. **DON'T CONFUSE THE TWO!**, *CAVEAT EMPTOR!*

Charley's Greenhouse & Garden 17979 State Route 536, Mt. Vernon, WA 98273 1-800-322-4707 <http://www.charleysgreenhouse.com/>
Propagation, irrigation and ornamentation are all well covered here. Especially good for orchid growing and seed starting supplies. You need their catalog!

Deer-resistant Landscape Nursery 3200 Sunstone Ct. Clare, MI 48617 989-386-4955 <http://www.deerresistantplants.com/>
This is a great place for anti-deer information. They do have some plants and stuff (not rock garden), but what caught my interest was all the information.

EarthBox

1350 Von Storch Ave. Scranton, PA 18509 1-800-821-8838 <http://www.earthbox.com/>

It is hard to find a self-watering system. This one seems to be readily available. The basic system is about \$30 and a set of castors is an additional \$10. The reservoir holds 3 gallons of water, Product dimensions: 29"L x 14"W x 11"H. Integrated caster sockets. The patented self watering, self feeding design uses a fraction of the moisture and fertilizer - and there are no weeds to pull! The Earth Box is made from recycled materials and reusable for generations. I have never used or seen one.

Gardeners Edge

Gardeners Supply 5100 Schenley Place, Lawrenceburg, IN 47025 1-888-833-1412 <http://www.gardeners.com/>

These are my very favorite self watering hanging pots! I have used them for years and they are great! Now that Frank's Nursery and Crafts is gone, I can only get them from here! Try them they are great. They are attractive and last for years. The reservoir is large enough to really work on those log dry spells in summer. They even have Self watering conversion kits! Be sure to get the catalog every year!

Gempler's Supply

Supplies and lots of them. Madison, Wisconsin 800-382-8473 <http://www.gemplers.com/>

Gemplers is a great catalog source for all kinds of fun stuff... This was the only place I could find the Gorilla Cart™.

I was talking to a friend in Fayetteville and this is his all-time favorite cart. The top tips over to dump and you can easily haul heavy loads and even large rocks. It is also narrow enough to go through our garden paths. This handy Gorilla Cart™, dump cart, combines the functions of a wheelbarrow with the convenience of a four-wheeled cart. There's no need to balance the cart on just one or two wheels like a wheelbarrow. The 37"Lx19"Wx8"H poly tub has a capacity of 600 lbs. and easily dumps up to 300 lbs while never rusting. Just pull the release handle and lift to dump. 4.10/3.50-4 pneumatic turf tires provide a stable platform & easily rolls over a rough terrains. \$98 plus S&H. (I found mine at a DO-IT hardware store!)

Holdredge Enterprises, LLC

2533 State Hwy 80 West Burlington, NY 13482 (607) 965-6423 <http://holdredgeenterprises.com/>

So versatile it makes weeding fun. You can stand up to weed around plants and in tight spots where you previously had to get on your hands & knees. The rigid, sharp blade on a heavy duty handle slices through weeds. Flat blade suited for weeding in open spaces using a back & forth action as well as getting in between plants & next to bulbs. The tip can be used to isolate individual weeds or score the ground to loosen soil. The flat blade slices weeds just below the surface. Because the handle mounts over the blade you can see the vertical blade edge & always know how close you are to your plants. Flip the blade over and use it as a rake to cut weeds or smooth out an area.! A 'Man Tool' that women can use, too! Stainless Steel & sturdy enough to last a lifetime. Advertised by Paul James. The Heron - 60" ash handle (\$49 + \$15 S&H) Hummingbird - Hand held w/ Cherry handle (\$45 + \$8 S&H) They also have a lightweight style for fluffy soil (\$49 + \$15 S&H) Or watch it here <http://www.youtube.com/watch?v=aFbof3Ha9ns&feature=related>

Tipke Foldit Garden Cart

Tipke Manufacturing Company, Inc. - 321 N. Helena St. Spokane, WA 99202 509.534.5336 <http://www.tipkemfg.com/foldit>

I have the Tipke garden cart and love it! I would recommend it to everyone! It is expensive, but lasts for a lifetime and never rusts. The company was delightful to deal with. Super Lightweight! Folds into a small space and only 33 pounds! Fits into a trunk or in the back seat of your car. Easy to clean.

Water Right, Inc 1945 NE Baker St. McMinnville, Oregon 97128 p. 503.437.9241 <http://www.waterrightinc.com/index.htm>
We make the garden hose you've always wanted. Slim. Light. Flexible Polyether-based polyurethane is designed for long-term water use. No kinks, no cracks, no leaky connections. Water Right is a privately held company based in the beautiful Willamette Valley. I get an interesting newsletter from Margaret Roach who used to be on the Martha Stewart Show when it was a good garden resource....She fell in love with this hose when given the prototype to try out. Her Article, (<http://awaytogarden.com/giveaway-i-hate-to-water-but-met-a-hose-to-love>) is great and I thought you might be interested in a new American made product that really performs (I hate my so-called kink free heavy hoses.)

Winged Weeder®

<http://www.wingedweeder.com/wingedweeder/products.html>

It was originally designed with a long handle so that weeding could be done without stooping over. In addition to the many uses in the garden, it also works as an ice scraper for sidewalks and driveways. Sue's favorite tool! When I find sources and prices, I will let you know. In a moist, dark environment Beneficial Nematodes (*Steinernema feltiae*) kill almost all pests. Therefore, they are ideally suited to combat insects in and on the soil and those that bore into wood, trees and shrubs. These microscopic, worm-like parasites actively hunt, penetrate and destroy over 230 different pests including fleas, fungus gnats, black vine weevils and white grubs. Naturally occurring, they are not harmful to people, pets, plants or earthworms and will continue working for 18 months. Apply anytime the soil is not frozen. Killing action begins 24 hours after application. One pint (7 million) treats 200-400 sq. ft.

Araceum illustrated database
(Arums, Alocasias, Colocasias, Amorphophallus, Arisaema.....etc!) Outstanding information! <http://www.wschowa.com/abrimaal/araceum/indexe.htm>

This is my personal list of mail order garden sources to share with my garden friends and the comments are for myself.. If I trust a gardener, personal notations are used. Other gardeners might have different opinions. EX: I have strong opinions about the quality of Bond tools vs. the earlier Corona brand. I owned both. I only kept the Corona ones. Now my garden centers are only selling Bond. Who is right? I only know my own experiences with given products. As you know, I have always been primarily into Hosta and Japanese maples, but as life goes on I've fallen in love with many other plants. Don't be late ordering some of the rare treasures. Plant Delights and Wayside sell out of some of their best stuff right away (sometimes in December!). If you know of other nurseries that would interest our rock garden group, let me know. If you have had personal contacts with them, let me know. As of today, all of the links work! It can be updated at any time, so be sure to let me know of new places, additional comments, corrections and updates! If you disagree with me on any reference, Let me know! I'll mention it, too! I hope this list helps you find the treasures you are interested in. With a little luck, this list will grow to include amorphophallus and Japanese maple links in separated sections....maybe even tomatoes! This past year I have been bathing in a sea of Heuchera and Arum italicum. I guess every gardener finds new interests from year to year! I also love good gardening tools! So be sure to check out the 'Good Garden Junk'. As I get older, I need good equipment to make it through all of the hard jobs or I wear out before I finish. As you will notice below, I am making a list of the major nurseries as we lose them. Please help update this list! Also, I am always on the hunt for more garden stuff. I would also like recipes for natural garden remedies that you have really tried! If you are into vermiculture or bees, I would like to know more about them and the resources, too!

In case you are wondering about the photos, I contacted all the sources and they liked getting the free ad for their businesses. I even spoke with the company in Canada who makes Tipke...they are amazing.

Happy Gardening!
